

MIDNIGHT BLACK BARK MULCH

Our Midnight Black Bark Mulch is made of cedar. It will gradually breakdown, adding nutrients to your garden soil. It is finely shredded which makes it easy to use. We suggest putting down a minimum depth of 3 inches to help retain moisture, which will allow you to reduce watering, and up to a depth of 5 inches to control weeds. Midnight Black Bark Mulch will give you a professional looking garden.

Midnight Black: The colour of this mulch is black, which gives it the appearance of natural looking soil while still providing all the benefits of mulch.

APPLICATION GUIDELINES

- 3 inches covers 108 sq ft
- 1 inch covers 325 sq ft
- 1/4 inch covers 1300 -2000 sq ft
